Subject: Garden Cove Estates
Street Lighting Special Taxing District

Recommendation

It is recommended that the Board of County Commissioners (BCC) approve a petition submitted in accordance with Article 1, Chapter 18 of the Code, for creation of the Garden Cove Estates Street Lighting Special Taxing District. The creation of this District is a subdivision requirement pursuant to Chapter 28 of the Code of Miami-Dade County.

Scope

This proposed special taxing district lies within Commission District Eight (8) and will provide street lighting services.

Fiscal Impact/Funding Source

Creation of this District will result in no economic impact on the County's budget. The developer, pursuant to Chapter 18 of the Code, is required to fund the District's first year's lease of the equipment and electricity costs to operate the system and all costs incidental to creation and administration incurred by Miami-Dade County.

After the first year, the economic impact on the private sector will be a perpetual annual special assessment for the cost of street lighting to all property owners within the District. The City of Homestead is the owner of the system and therefore will derive revenues from it.

At this time there will be no increase or decrease in County staffing due to this District. The private sector may increase its staffing levels to provide the service requirements created by this special taxing district.

Track Record/Monitoring

Contingent upon BCC approval of this District, the Public Works Department's Special Taxing Districts Division will monitor the City of Homestead's agreement, installation and billing process.

State or Federal grants are not applicable to this special taxing district.

Each street lighting special taxing district is unique due to its geographical boundaries, affected property owners, and level of services to be provided. Creation of a new special taxing district to provide this service is the best and most cost-effective method to achieve this benefit.

In accordance with the requirements of Chapter 28 of the Code to provide street lighting in new subdivisions through the creation of street lighting special taxing districts, and in compliance with the provisions of Section 18-3 (c) of the Code, I have reviewed the facts submitted by the Public Works Director and concur with her recommendation that this District be created pursuant to Section 18-2 of the Code.

**REPORT AND RECOMMENDATIONS ON THE
CREATION OF GARDEN COVE ESTATES
STREET LIGHTING SPECIAL TAXING DISTRICT
MIAMI-DADE COUNTY, FLORIDA**

Pursuant to Chapter 18 of the Code, and as a result of a detailed investigation of a duly petitioned for special taxing district, the following facts are submitted by the Public Works Department Director concerning the creation of Garden Cove Estates Street Lighting Special Taxing District.

1. BOUNDARIES OF THIS DISTRICT

The proposed District is located entirely within a portion of unincorporated Miami-Dade County, and the boundaries, as set forth in the petition, are as follows:

A portion of Section 2, Township 57 South, Range 38 East, Miami-Dade County, Florida; being more particularly described as follows:

Begin at the northeast corner of the SE ¼ of said Section 2; thence south along the east line of said Section 2 for 466.70 feet to the Point of Beginning; thence continue south along the east line of said Section 2 for 463.30 feet; thence S 89° 41' 31" W for 466.70 feet; thence N 00° 41' 57" W for 463.30 feet; thence N 89° 23' 22" E for 466.70 feet to the Point of Beginning (a.k.a. Garden Cove Estates, Tentative Plat # T-22505).

The boundaries are shown on the attached plan entitled Garden Cove Estates Street Lighting Special Taxing District and hereinafter referred to as Exhibit A.

2. LOCATION OF THE INSTALLATIONS TO BE CONSTRUCTED

The facilities to be provided under the District will consist of sodium vapor bracket-arm streetlights mounted on new concrete and existing wooden poles located within the street right-of-way. The spacing of the streetlights will be between approximately 170 to 180 feet apart as shown in Exhibit A.

3. ESTIMATED COST FOR THIS DISTRICT

As provided for under Section 18-2 of the Code, the property owner(s), the developer(s), within the proposed District shall guarantee payment of all costs and expenses incidental to the creation of such District and shall pay the entire cost of providing street lighting within the District for the first year. The City of Homestead will install the lights, poles and service lines at its expense. However, the special taxing district, the developer(s), may be required to pay a differential cost if rapid construction techniques cannot be used on this project. This cost is estimated and shown as the Homestead Utility restoration cost in the District's cost estimate.

4. ESTIMATE OF THE ANNUAL EXPENSE FOR MAINTENANCE, REPAIR AND OPERATION OF THIS DISTRICT

The facilities provided will remain the property of the City of Homestead, which will be responsible for the maintenance of the light standards, fixtures, lamps, and all connecting service lines. The cost of streetlights in this District will be continual and is based on a preliminary estimate using a City of Homestead Rate Schedule, approved by the Florida Public Service Commission, a copy of which is attached. The District will pay the City of Homestead a monthly rental fee on each installation. There will be 6 lights and 3 pole rentals served by overhead and underground wiring for an annual cost of \$1,160 for the first and second years.

As provided by Chapter 18 of the Code of Miami-Dade County, the petitioner shall advance the above first year's estimated streetlight costs together with all costs incurred to create and maintain the District for its first year of operation. The District's property owners shall pay these costs for the second and succeeding years. The engineering and administrative costs involved in establishing and maintaining the District are estimated to be \$2,660 the first year and \$60 the second year. The cost of handling the billing, collecting the assessment, and processing the payments to the City of Homestead is estimated to be \$1,960 the first year and \$150 the second year. Additionally, contingency funds in the amount of \$1,300 the first year and \$200 the second year are provided.

ESTIMATED ANNUAL COSTS

	<u>First Year</u>	<u>Second Year</u>

TOTAL STREET LIGHTING SERVICE COSTS	\$1,160	\$1,160

ESTIMATED ANNUAL COSTS (CONTINUED)

	<u>First Year</u>	<u>Second Year</u>
BILLING, COLLECTING & PROCESSING COSTS	\$1,960	\$150*

TOTAL COST COVERED BY PETITIONER	\$7,830	
TOTAL COST TO DISTRICT EACH YEAR THEREAFTER		\$1,570*

*To be adjusted from actual experience.

5. PROCEDURE

Following the creation of the District by the Board of County Commissioners (BCC), and upon receipt of the payment by the developer(s) of the total estimated annual cost for the first year as specified in Item 4 above, the County Manager shall cause the petitioner's plat to be placed on a BCC Agenda for acceptance and subsequent recordation.

Miami-Dade County may then enter into an agreement with the City of Homestead, form attached, wherein Miami-Dade County will pay to the City of Homestead any costs associated with the streetlight installation, and monthly payments for the annual cost of the streetlight service estimated at \$1,160 or approximately \$97 per month. These amounts will be charged during the first year's operation against funds advanced by the petitioners. Based on front footage, each property owner along the lighted roadway will pay the County, through a special assessment, a proportionate share of the total annual cost each year thereafter.

6. CONFORMITY TO THE MASTER PLAN OF MIAMI-DADE COUNTY

The proposed District conforms to and in no way conflicts with the Comprehensive Development Master Plan of Miami-Dade County (see attached memorandum from the Department of Planning and Zoning).

7. RECOMMENDATION CONCERNING THE DESIRABILITY OF THIS DISTRICT

The need for street lighting in Miami-Dade County is apparent. Residents and property owners of Miami-Dade County continue to demonstrate their desire for street lighting through numerous petitions and personal requests.

In my opinion, the proposed streetlights will provide special benefits to property within the District exceeding the amount of special assessments to be levied.

8. ESTIMATE OF ASSESSMENT AGAINST BENEFITED PROPERTY

As was determined in Item 4 above, each property owner along the lighted roadway will pay the County, through a special assessment, a proportionate share of the total annual cost the second year and each succeeding year thereafter. The annual assessments shown below are representative of costs for typical single-family lots within this District.

Estimated Annual Assessments	<u>First Year</u>	<u>Second Year</u>
Per Assessable Front Foot		\$1.467
For A Typical Single-family Interior Lot	Cost to be provided by the petitioner	\$178
For A Typical Single-family Corner Lot		\$257

These costs are based on a preliminary estimate of 1,070 total assessable front feet and will be adjusted from actual experience.

9. RECOMMENDATION

I recommend that Garden Cove Estates Street Lighting Special Taxing District be created pursuant to Section 18-2 of the Code, which provides for the creation of special taxing districts for street lighting in new subdivisions. The creation of the District will be subject to BCC approval; no election will be necessary as 100 percent of the property owners signed the petition. Following adoption of the creation ordinance, it is further recommended that the BCC adopt the District's Preliminary Assessment Roll Resolution. Adoption of this resolution will enable the Miami-Dade County Tax Collector to provide the funding necessary to administer the District, as well as provide funds for payment to the City of Homestead for the District's monthly power bills for the second and succeeding years. In the event actual costs are lower than the costs estimated, the Director of the Public Works Department or her designee shall adjust and decrease the front foot rate of assessment. In the event actual second year costs are higher than the costs estimated, the County Manager may, at his discretion, cause to be prepared a revised preliminary assessment roll and file the same with the Clerk of the Board for a scheduled public hearing to adopt the revised assessment roll. The

ordinance creating the District shall take effect ten (10) days after the date of its adoption unless vetoed by the Mayor, and if vetoed, it shall become effective only upon an override by the BCC. My office will also be available to answer any questions from the public or your office in regards to the financial and/or engineering facts of this project. We further recommend that the County Manager forward the attached report to the BCC after he has reviewed it and concurred with our findings.

Modification of City roadway lighting facilities is defined as the addition of roadway lighting facilities; the removal of roadway lighting facilities and the replacement of such facilities and /or additional facilities.

Modifications will be subject to the costs identified in the currently effective Roadway Lighting rate schedule or any successive Roadway Lighting rate schedule approved by the appropriate regulatory authority.

10. At the request of the Customer, the City will relocate the roadway lighting facilities covered by this agreement, if provided sufficient right-of-ways or easements to do so. 16. Failure to enforce or insist upon compliance with any of the terms or conditions of this Agreement shall not constitute a general waiver, or relinquishment of any such terms or conditions, but the same shall be and remain at all times in full force and effect, nor shall either party be stopped to enforce or to seek relief from prior breach.

17. This Agreement constitutes the entire Agreement between the parties with respect to the facilities referenced herein and supersedes all prior Agreements or representations, either oral, written or otherwise between the parties. If any term or provision of the Agreement shall be held invalid or unenforceable, the remaining terms and provisions of the Agreement shall remain in full force and effect and such invalid, illegal or unenforceable term or provision shall be deemed not to be a part of this Agreement.

MEMORANDUM

To: Aristides Rivera, P.E., P.L.S., Director
Public Works Department

Date: January 15, 2002

From: *Diane O'Quinn Williams*
Diane O'Quinn Williams, Director
Department of Planning and Zoning

Subject: Street Lighting, Maintenance of
Landscape, Walls Adjacent to
Double-Frontage Lots and Lakes
Special Taxing Districts

Section: As Required
District: As Required
Council: As Required

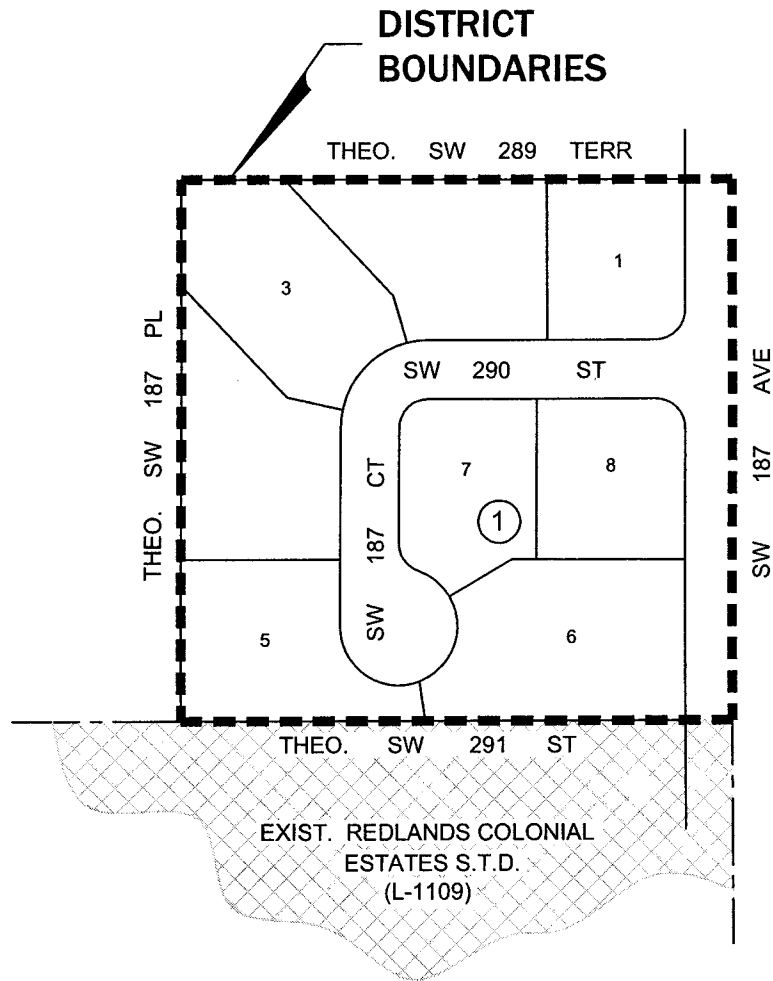

Effective September 5, 2001, all tentative plats in the unincorporated area of Miami-Dade County submitted to the Land Development Division of the Public Works Department, must be accompanied by a properly executed petition for all applicable special taxing districts including, but not limited to street lights, maintenance of landscape, walls adjacent to double frontage lots, entrance features and lakes. Final Plats will not be presented to the Board of County Commissioners for consideration until the applicable special taxing districts are created, and all fees have been paid. In that regard, to ensure expeditious processing, this Memorandum may serve as approval for certain future special taxing district application requests as being consistent with the intent and purpose of the adopted 2005-2015 Comprehensive Development Master Plan (CDMP). Policy 4A – Capital Improvement Element states: Appropriate funding mechanisms will be adopted and applied by Miami-Dade County in order to assure the fiscal resources to maintain acceptable levels of service. Such funding mechanisms include special tax districts, municipal taxing service units, local option taxes, user fees, local gas tax, general obligation bond, impact fees, and special purpose authorities, or others as appropriate and feasible (Adopted Components as Amended through April 2001, page IX-10). The provision for services over and above minimum for neighborhoods and communities may be accomplished through the special taxing district as may be prescribed by the code.

The Department of Planning and Zoning (DP&Z) has no objection to a blanket approval with condition to establish future special taxing districts as limited to requests for street lighting, landscape maintenance, walls adjacent to double-frontage lots and lake maintenance districts. The previously noted special taxing districts may be established on the condition that the DP&Z review all landscape maintenance districts for compliance with plantings in public rights-of-way and lake maintenance districts for consistency with Landscape Code (Chapter 18A) Section 18A-6(L) Storm Water Retention/Detention Areas.
